RE: Report on GPS Monitoring Programs

In 2006 the South Carolina General Assembly passed "Jessie's Law" Act 342 and Act 346 of 2006. "Jessie's Law" requires that offenders released after the completion of a term of imprisonment or placed on parole or probation that was convicted of, pled guilty or nolo contendere to an offense as specified in Section 23-3-540 (G) must be placed on a system of active electronic monitoring for the duration of the time the offender is required to remain on the sex offender registry.

The following is a report on GPS Monitoring Programs at the Department of Probation, Parole and Pardon Services as required by the 2007 Appropriations Act, Proviso 72.106.

If you have questions concerning the information contained in this report please contact William Bray, Director of Budget and Legislative Services at 734-9336.

### What is GPS?

GPS is a system that can pinpoint within 15 meters a person's position on the Earth using 24 Global Positioning Satellite (GPS) satellites in orbit at 11,000 nautical miles above the Earth. The satellites are owned and operated by the Department of Defense, and continuously transmit signals which can be detected by anyone possessing a GPS receiver.

### What is Active GPS?

Active GPS provides continuous information regarding the whereabouts of an offender. This information is automatically uploaded to a main computer via cell technology. Active GPS units can also be "pinged" by the supervising Agent at any time so that the offender's location can be ascertained very rapidly.

### What is Passive GPS?

Passive GPS provides information regarding the whereabouts of an offender during the previous 24 hour period. This information is collected throughout the day and is then transmitted via a land line telephone to the main computer and finally is downloaded to the supervising Agent.

### What is Mandatory "Jessie's Law" GPS Placement?

A person convicted on Criminal Sexual Conduct with a Minor 1<sup>st</sup> Degree or Lewd Act upon a Minor is a mandatory GPS placement for the duration of the time the offender is required to remain on the sex offender registry.

### What is a Discretionary "Jessie's Law" GPS Placement?

A person convicted of any other offense contained in Act 342 and Act 346 of 2006 other than CSC with a Minor 1<sup>st</sup> or Lewd Act upon a Minor the Judge has the discretion of placing the offender on GPS for the duration of the time the offender is required to remain on the sex offender registry.

### Sex Offender Demographics:

- There are currently over 7,600 sex offenders on the SC Sex Offender Registry. Of those, approximately 930 are under active supervision in the community under the jurisdiction of SCDPPPS.
- Average age of sex offenders is 37 years.
- Approximately 60% of sex offenders are white
- Approximately 40% of sex offenders are black or other ethnicity
- Average education level is 11<sup>th</sup> grade

## “Jessie’s Law” Stats as of December 31, 2006

### Number of Active Offenders on electronic monitoring:

Mandatory GPS placement	7
Discretionary GPS placement	2

### Pending Cases:

The Department anticipates an increase in placements of offenders that qualify for “Jessie’s Law”. The November and December admissions indicate that “offense dates” are just now beginning to reach the applicable date of July 1, 2006 to fully qualify a new “Jessie’s Law” conviction case for GPS. Based on this data, the Department projects:

- **New Admissions (Mandatory)** – It is estimated that the Department will receive an average of 12 new admissions per month that will qualify for mandatory GPS.
- **New Admissions (Discretionary)** - It is estimated that the Department will receive an average of 14 new admissions per month that will qualify for discretionary GPS.
- **Violation of Supervision (Mandatory)** – As of December 31, 2006, there were 166 cases scheduled for a violation of supervision hearing that qualify for “Jessie’s Law”. Of these cases 83 would require mandatory GPS. The Department projects that 45 of these hearings will result in GPS placements.

### Number sentenced for life:

There are no 2<sup>nd</sup> offense mandatory GPS offenders sentenced to life imprisonment during this reporting period.

### Number of offenders with electronic monitoring violations:

Arrested on new charges	1
Absconded	<u>1</u>
Total Electronic Monitoring Violations	2

### Number of alert notifications received, investigated, and prosecuted:
